PROFESSIONAL SUMMARY

Recent Computer Science graduate with hands-on experience building AI-powered applications and backend systems. Built and deployed multiple projects including an AI Resume Analyzer using Google Gemini API and a Job Tracker with AI matching. Strong foundation in Python, FastAPI, PostgreSQL, and REST APIs. Actively learning AI agents, RAG, and LLM applications. Seeking opportunities to build impactful AI-powered products.

TECHNICAL SKILLS

Backend	Python, FastAPI, Django, REST APIs, JWT Authentication
AI / LLM	Google Gemini API, Prompt Engineering, AI Pipeline Integration
Databases	PostgreSQL, SQLite, SQLAlchemy, SQL
Frontend	HTML, CSS, JavaScript, React (Basic)
Tools	Git, GitHub, VS Code, Postman, Linux (Basic)

AI PROJECTS

Resume Analyzer — AI-Powered Resume Parsing

Technologies: FastAPI, Google Gemini API, PyPDF2, SQLite, HTML/CSS/JS

- Built an AI-powered web app that extracts structured data from PDF resumes
- Integrated Google Gemini API for LLM-based text extraction
- Designed prompt engineering workflows for reliable structured output
- Deployed live on Railway • GitHub: github.com/Jay5566170/resume-analyzer

Job Tracker & AI Matching Platform

Technologies: FastAPI, PostgreSQL, SQLAlchemy, JWT, Google Gemini API

- Building a full-stack app that tracks job applications and matches resumes to jobs using AI
- Backend 100% complete: Authentication, job CRUD, resume upload, AI matching, URL/text parsing
- AI features: skill extraction, match scoring, skill gap analysis
- GitHub: github.com/Jay5566170/job-tracker

Student Manager API — Production Backend

Technologies: FastAPI, PostgreSQL, SQLAlchemy, JWT, Docker

- Complete REST API with CRUD operations and JWT authentication
- Deployed live on Railway • GitHub: github.com/Jay5566170/student-manager

EDUCATION

BS Computer Science

COMSATS University Islamabad, Abbottabad Campus

2022 – 2026

STRENGTHS

- ✓ Strong Python and AI integration skills
- ✓ Hands-on with LLM APIs and prompt engineering
- ✓ Self-directed learner — built 4+ projects from scratch
- ✓ Technical documentation and clean code
- ✓ Fast learner with growth mindset

LANGUAGES & AVAILABILITY

Languages	Availability
English — Fluent	Available immediately for full-time work in Lahore
Urdu — Fluent	Open to remote, hybrid, or onsite roles
Pashto — Native
