WEB DEVELOPMENT INTERN | REACT + JAVASCRIPT | BACKEND FOUNDATIONS

Recent BS Computer Science graduate targeting an entry-level web development internship. Hands-on project experience with HTML5, CSS3, JavaScript, React, REST APIs, Python, FastAPI, Django REST Framework, SQL/SQLite, and Git/GitHub. Comfortable building responsive interfaces, integrating APIs, working with databases, and debugging application issues. Strong willingness to learn MERN/Next.js workflows and contribute to real-world full-stack projects.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React, Vite, responsive UI, browser debugging
Backend / APIs	Python, FastAPI, Django, Django REST Framework, REST APIs, JSON, HTTP
Database	SQL, SQLite, CRUD, relational database fundamentals
Tools	Git, GitHub, VS Code, terminal/command line, API documentation
Currently building	FastAPI backend development, API integration, practical full-stack workflows

SELECTED PROJECTS

E-Testing System - React + Django REST Framework

- Team-based final-year web application using React + Vite for the frontend and Django REST Framework for backend APIs.
- Worked with dashboard-style interfaces, REST API integration, authentication flows, question-bank functionality, and SQLite persistence.
- Contributed primarily through documentation, requirements, and workflow understanding while gaining familiarity with full-stack architecture.

Resume Analyzer - FastAPI Web Application

- Developed a web application with a structured FastAPI backend, API routes/schemas, database-backed data, and separate frontend/backend organization.
- Worked with document/resume processing and API-oriented application workflows in Python.

Student Manager - Python + SQLite + REST API

- Built a student-record application and evolved it from JSON/file storage into SQLite-backed SQL CRUD operations.
- Extended the project into a FastAPI service with GET endpoints, path parameters, JSON responses, HTTP error handling, and live database queries.

EDUCATION

BS Computer Science - COMSATS University Islamabad, Abbottabad Campus | 2022-2026 | CGPA: 2.59/4.0

STRENGTHS

- Fast learner who prefers hands-on implementation, debugging, and mentor feedback.
- Comfortable collaborating through Git/GitHub and working across frontend, backend, API, and database layers.
- Motivated to learn modern JavaScript ecosystems including Node.js, Express.js, MongoDB, and Next.js.

Target: Web Development Intern / Junior Web Developer - Aur Code Solutions
